

## GLOBAL SCIENTISTS AND ENGINEERS PROGRAM (GSEP) SCHOLARSHIP FOR INTERNATIONAL UNDERGRADUATE STUDENTS

### Global Scientists and Engineers Program (GSEP)

is a transdisciplinary engineering degree program designed to equip future scientists and engineers with knowledge that are essential to solve real-world global problems and develop inter-cultural leadership skills. **Japanese language proficiency is not required for the admission to the program.**

**GSEP Scholarships** will be awarded to ten students to pursue a degree of Bachelor of Engineering at the Tokyo Institute of Technology. **The scholarship includes exemption from application, admissions, and tuition fees, and also provides monthly stipend for living expenses for the student for four years.**

For more information, visit the GSEP website:
