

Greetings from Japan!

This is the Admissions Office for the International Programs at Nagoya University, Japan. We would like to extend our sincere gratitude and appreciation for your kind support and cooperation over the past few years.

We enjoyed meeting you to introduce our International program and hope we can continue working together in the future.

Today, we are excited to inform you that we will start welcoming new students for the October 2015 intake. The first round of admission will be from December 1st to January 9th.

For more details about the admission timeline and requirements, please refer to the links below:

<http://admissions.g30.nagoya-u.ac.jp/en/Program/undergraduate/admissions/>

In the meantime, please feel free to contact us if you or your students need more information about our program and admissions.

We look forward to receiving your students' applications.

Thank you for your time and attention.

Sincerely,

Admission Office of Nagoya University G30 Program

Nagoya University (NU) is a nationally-funded research university with strong focus on international education. Currently we are ranked 99 in the world and 17 in Asia (QS 2013).

Our International Undergraduate Programs (in Automotive Engineering, Chemistry, Physics, Biological Sciences and Social Sciences) have been launched in October 2011, and all courses are **taught in English**.

From Oct. 2014, due to the success of our current international programs, we are adding one more program called Japan-In-Asia in the School of Literature, focusing on history and culture of Asia, film, pop-culture or visual media.

As a research-intensive university, we are looking for the students who have strength especially in science and mathematics.

We welcome students interested in exploring their future education and career in Japan, **although we do not require any Japanese language background** for application.

For more information please visit our website to find the programs brochure:
