

As you may know University College Utrecht (UCU) is the international honours college of *Utrecht University* in the Netherlands (Shanghai ranking 2012: best Dutch university). UCU specializes in *liberal arts and sciences* undergraduate education. Students compose *an individual curriculum* from over 200 different courses in humanities, science and social science. The UCU approach is *personal*: classes are small, participation is actively encouraged and all students have a personal tutor. The admissions process is highly *selective*: students are admitted on the basis of academic excellence, an international focus, social engagement and extracurricular activities. All 700 students (40% international) live on *campus* in the historic city of Utrecht.

If you would like this I could send you some brochures and/or posters. If this is the case, what address could I send them to and how many would you like? Also, we would of course be more than happy to visit some time.

Alternatively you can download all our materials from our website: <http://www.uu.nl/university/college/EN/contactvisiting/downloadcenter/Pages/default.aspx>

We also always welcome visitors to our campus. This can be arranged here: <http://www.uu.nl/university/college/EN/contactvisiting/Pages/Campusvisit.aspx>.

You can see some more pictures and videos of our campus and student life on our Facebook and YouTube account. The links to these can be found at the bottom of this e-mail. The videos on YouTube explain are overall curriculum in under 4 minutes and our departments in under two.

Maybe you are also interested in visiting the Dutch universities? Several of us are currently organizing a tour that will most likely take place in spring. If you like, I will keep you updated.
